How to Use This Workbook

Welcome, young mathematician!

This book is full of multiplication and division practice.

Each page has one big problem with room to work it out.

1. Read the problem at the top of the page.
2. Use the space to draw, count, or show your work.
3. Write your answer in the answer box.
4. Check your work with the Answer Key at the back.

Tips:

- For multiplication, try drawing rows and columns (arrays).
- For division, share the total into equal groups.
- Practice a few pages every day. Little and often wins!

There is no timer here. Take your time and have fun.

You've got this!
