

Number Tracing Workbook

Kindergarten - Trace Numbers 0 to 20

Trace, Count, and Write - With Answer Key

How to Use This Workbook

This workbook helps your child learn to write numbers 0 to 20 by tracing, counting, and practicing on their own.

- Trace the light gray numbers from top to bottom.
- Say the number name out loud as you trace.
- Count the pictures to connect numbers with amounts.
- Then practice writing the number all by yourself!

Tip for grown-ups: use a pencil, keep sessions short and fun, and praise every attempt. Repetition builds confidence.
